about iCONNECT | XERA

Built in HTML5, XERA is an intuitive, multi-browser, hosted eDiscovery review platform developed by iCONNECT to optimize the review, analysis and production of electronically stored information (ESI). Operating on a SQL® or Oracle® database, XERA empowers document teams to maximize productivity through it's easy to navigate interface, enhanced social collaboration and remote accessibility features.

iCONNECT Development, LLC is a global market leader in developing innovative document review software, services and programs that empower people to complete complex legal review projects more cost effectively. As early innovators of eDiscovery review software since 1999, and with the recent release of its revolutionary web-based, XERA eDiscovery Review Platform, iCONNECT continues to raise the bar for advancements in developing intelligent, easy to use tools that help hosting providers, law firms, corporations and government agencies worldwide optimize workflows and manage big data more efficiently.
