

2c. Create a Column & Bar Graph

This PICNIC shows you how to create a column or bar graph for the contents of a folder or a field.

Steps

1. Create an iVIEW Index and ensure that it is active. See the 2a - VIEW Index Picnic.
2. In Table View, click on the iVIEW tab (in the upper right corner), then click the gear icon.
3. Click the applicable **Column** or **Bar Chart** icon.

4. Select the folders and field you want to graph from the lists.
5. Click **Go**.
