

2d. Create a Timeline Graph

This PICNIC shows you how to create a timeline graph using the contents of a folder and field.

Steps

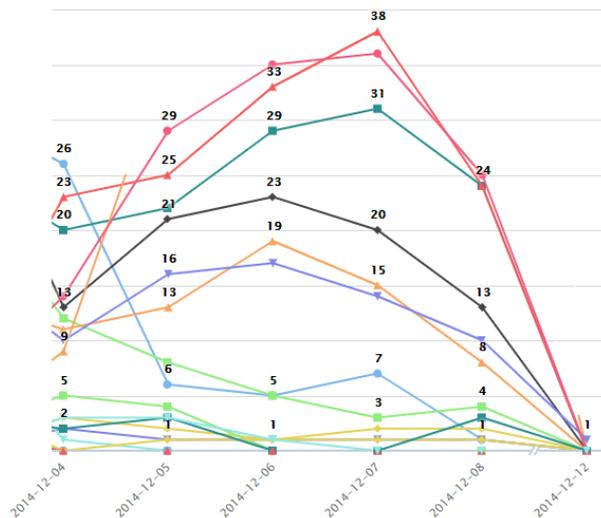

1. Create an iVIEW Index and ensure that it is active. See 2a, the iVIEW Index Picnic.
2. In Table View click on the **iVIEW** tab (in the upper right corner), then click the gear icon.
3. Click the **Line Graph** icon.
4. Select the folders and field you want to graph from the list.
5. Choose the date field and then the format of how the date will display from the **Date Format** list.
6. Click **Go**.

Custodian
by
Daily Date

Graph

Notes

➤ In the example to the left, the graph shows the Custodian by date, which is updated daily.

Graph Legend

Custodian
